

Static camouflage is a modular, weather-resistant solution designed to conceal vehicles, equipment, personnel and infrastructure.

The 3D variant features a three-dimensional structure that mimics vegetation and offers high durability.

Available versions: optical (VIS, NIR, TIR)
and multispectral (VIS, NIR, TIR, RADAR).

CHARACTERISTICS

Equipped with support sets adapted for use in various terrain conditions. Each system is designed with the characteristics of the operational environment in mind, while the pattern, colour scheme and parameters can be tailored to individual requirements. Easy to maintain and repair under field conditions.
