

Mobile camouflage is a modular camouflage solution designed to conceal vehicles. Its unique vehicle mounting system enables quick and easy installation without restricting vehicle functionality. It provides multispectral concealment across VIS, NIR, TIR and RADAR.

BENEFITS

VEHICLE-SPECIFIC

MULTISPECTRAL

EASY TO INSTALL

VEGETATION-MIMICKING
STRUCTURE

MOBILE CAMOUFLAGE (VIS, NIR, TIR, RADAR)

OPERATING SPECTRUM

VISIBLE SPECTRUM
(VIS)

NEAR-INFRARED
(NIR)

THERMAL INFRARED
(TIR)

RADAR

CHARACTERISTICS

The solution provides additional thermal protection for vulnerable areas. Each system is designed with the vehicle characteristics in mind, while the pattern and colour scheme can be tailored to individual requirements.
